Personal Profile

I'm a fullstack web developer with a preference for backend positions, open to full-time, part-time and short-term contracted positions. I specialize in the MongoDB, ExpressJS, React and NodeJS stack

Skills

Major Technologies

- JavaScript
- NodeJS
- MongoDB
- jQuery
- ExpressJS
- CSS3
- HTML5

Minor Technologies

- Redis
- Express Session
- PassportJS
- SocketIO
- YouTube DL

Other Technologies

- Adobe Photoshop
- Adobe After Effects
- Adobe Premiere

Soft Skills

Strong Communication

- My YouTube channel has a growing community of fans who enjoy how well my videos explain complex literature in a simple way.
- I'm also a novelist, a hobby which requires dedication to clarity and directness of communication.

Customer Service

- During my years of freelance video editing and graphic design, I worked with customers to understand what they needed and deliver on their expectations.
- My years working in retail also prepared me for keeping calm when customers are upset or confused.

Work History & Education
